**6.** Look at the abacus that Leonardo
used to show 95 in the problem
95 – 37.

    A. How many tens and how many
ones does the abacus show?
    B. Write a number sentence for what
the abacus shows.

1000s	100s	10s	1s
M	C	X	I

7. Look at the way Leonardo made
trades on the abacus.

    A. How many tens and how many
ones does the abacus show now?

    B. Does the abacus still show a
number that is equal to 95?
Tell how you know.

1000s	100s	10s	1s
M	C	X	I

C. Write a number sentence for what the abacus shows.

D. Show Leonardo how to use counting up to solve 95 – 37.
