

U Using Subtraction

1. For people who live in Chicago, a ticket to the Field Museum costs \$10 for adults and \$6 for children. How much more does an adult have to pay?
2. Sixteen students ate hot dogs for lunch. Nine students ate pizza. How many more students ate hot dogs?
3. Jacob had \$1.50. He spent 80¢ on a carton of milk. How much does he have left for a snack?

V Twins and Triplets

On an average day in America, 217 sets of twins and 5 sets of triplets are born. How many babies is this?
