

**Part 3** Using Strategies to Subtract  
Larger Numbers

Choose a method to solve the following problems. Estimate to make sure your answers are reasonable. Use the *Subtraction Strategies Menu* in the Reference section of the *Student Guide*.

1. 
$$\begin{array}{r} 3092 \\ - 1631 \\ \hline \end{array}$$

2. 
$$\begin{array}{r} 2002 \\ - 999 \\ \hline \end{array}$$

3. 
$$\begin{array}{r} 892 \\ - 647 \\ \hline \end{array}$$

4. 
$$\begin{array}{r} 5327 \\ - 1693 \\ \hline \end{array}$$

- Look at your answer for Question 3. Is your answer reasonable? Show or tell how you know.
- Use addition to check your answer for Question 4.
- Explain a method for solving Question 2 in your head or with a few quick notes.
