

Professor Peabody's Table

Professor Peabody started to fill in the multiplication table below. He wanted to look for patterns. As he was working, a rare spotted math hopper hopped by his window. He quickly picked up his net and followed it out the window.

Help Professor Peabody by finishing this table for him. Look for patterns. On the back, write a report that tells Professor Peabody about the patterns you find.

×	10	20	30	40	50	60	70	80	90	100
1									90	100
2			60					160	180	
3							210	240		
4						240	280			
5					250	300				500
6				240	300					
7			210	280						
8		160	240						720	
9	90	180								
10	100
