

M Using Strategies

Joe said, “I know 8×3 because I know that $4 \times 3 = 12$ and I double 12. So $8 \times 3 = 24$.”

Moe said, “ $6 \times 3 = 17$.”

Use Joe’s strategy to show if Moe is right or wrong.

N Story Solving

1. $3 \times 9 = ?$ Write a story and draw a picture about 3×9 . Write a number sentence on your picture.

2. $3 \times \frac{1}{2} = ?$ Write a story and draw a picture about $3 \times \frac{1}{2}$. Write a number sentence on your picture.
