

Part 3 More Addition and Subtraction Practice

Choose an efficient method to solve these problems. Check to see if your answers are reasonable. Use the *Addition Strategies Menu* and *Subtraction Strategies Menu*.

1. **A.** $60 - 38 = \underline{\hspace{2cm}}$

B. $28 + 17 + 13 = \underline{\hspace{2cm}}$

C.
$$\begin{array}{r} 92 \\ - 78 \\ \hline \end{array}$$

D. $35 + 25 + 19 = \underline{\hspace{2cm}}$

E. $180 - 90 = \underline{\hspace{2cm}}$

F. $46 + 38 + 54 = \underline{\hspace{2cm}}$

G. Explain a way to solve Question 1A in your head.

- 2.** Bill makes \$2.50 a week helping his grandmother. How much will he make in 3 weeks? Show or tell how you found your answer.
