

Part 6 It is About Time

1. Moe and Joe decided to run one mile. They both started to run at 2:09. Joe finished in 14 minutes. Moe finished at 2:22. Who finished first? Show or tell how you know.

2. **A.** Fern took her brothers to the park to play. They left their house at 10:20 am. It took them 15 minutes to walk to the park. What time did they arrive at the park?

B. Fern's mom told the children to be home for lunch at 12:30. What time do they need to leave the park to make sure they are home on time?

C. How long did Fern and her brothers have to play at the park? Show or tell how you know.

D. If Fern and her brothers left the house at 10:20 and arrived home for lunch at 12:30, how long were they gone?

3. Bessie Coleman School is having a special night for families. The evening starts at 6:00 with a family dinner. After dinner families will rotate to three different activity stations. They will spend 30 minutes at each activity. If the dinner takes 45 minutes, what time will the evening end? Show or tell how you know.
