

2. Complete the number sentences. Use a two-pan balance and masses to show that your number sentence is true. If it is not, correct it.

A. $3 \times 5 = 10 + \square$

B. $7 \times 5 = 3 \times 10 + \square$

C. $27 + 34 = 30 + \square$

D. $46 + 29 = 45 + \square$

E. $8 \times 5 + \square = 45$

F. $17 + 36 = 33 + 17 + \square$

3. Explain a way to solve Question 2D without using the balance.
