

**U Adding and Subtracting Money**

Use pencil and paper or mental math to complete the following problems. Use the *Addition Strategies Menu* and the *Subtraction Strategies Menu* in the *Student Guide* Reference section.

A.  $\$2.45 - \$1.05 =$

B.  $\$7.60 + \$9.95 =$

C.  $\$6.75 - \$ .32 =$

D.  $\$5.99 + \$4.25 =$

E. Explain a way to solve Question D using mental math.

**V Mouse Chow**

Professor Peabody has 450 grams of mouse chow for his pet mouse Milo.

1. If he wants the mouse chow to last for 9 days, how much should he feed to Milo every day?
2. If 100 grams of mouse chow cost \$1, how much did 450 grams of mouse chow cost?
