S **Measurement: Could Be or Crazy?**

Without measuring, decide whether each measurement is a “could be” measurement or a “crazy” measurement. Explain how you decided.

1. The distance from a doorknob to the floor is 30 cm.
2. The distance from a doorknob to the floor is 40 inches.
3. The face of a watch is 3 cm wide.
4. A fourth grader’s foot is 20 inches long.
5. A car is 3 meters long.
