

**W** Which Two Add Up?

29    176    249    48

- Which two of these numbers should you add if you want an answer:
  - over 400?
  - less than 100?
  - close to 200?
- Which number, when doubled, will be close to 350? Show or tell how you decided on your answer.

**X** Points on a Graph

Michael made a point graph from a list of ordered pairs Mrs. Dewey wrote on the board.

- Did Michael plot the points correctly? Use his point graph to explain your answer.
- If you think Michael drew the graph incorrectly, plot the points correctly on a separate sheet of *Centimeter Graph Paper*.
- What patterns do you notice in the data on the correct point graph?
