𝔽 Subtraction Practice

Use mental math to solve the following problems.

A. $92 - \boxed{} = 89$ B. $92 - 87 = \boxed{}$

C. $71 - 2 = \boxed{}$ D. $43 - \boxed{} = 39$

E. $41 - 39 = \boxed{}$ F. $72 - \boxed{} = 5$

G. Explain how you solved Question A.

𝔾 Could Be or Crazy?

Decide whether each measurement is a "could be" or "crazy" measurement. Explain how you decided.

1. A professional basketball player is about 80 inches tall.

2. A movie screen in a theater is 3 meters long.

3. The arm span of a teddy bear is 38 cm long.

4. The arm span of a teddy bear is 38 inches long.
