0 Factors and Primes

1. Which of the following are prime numbers? Draw a circle around them. Explain how you know they are prime.

   25   12   17   23

2. Write all the factors for the numbers above that are not prime.

P Tiling the Shower

Myrna Myrmidon and her Aunt Penny want to tile 3 walls of their shower. Each wall is 3 inches by 2 inches. How many square-inch tiles will they need in all? If the tiles come in packages of 10, how many packages should they buy?
