

AA Using Line Plots

Luis collected data about how far his friends walked to get to school each day. He decided to display his data using a line plot but did not finish.

Name	Number of Blocks Walked to School
Luis	4
Keenya	2
John	6
Nicholas	3
Irma	2
Jerome	4
John	4
Frank	3
Linda	5

1. Use Luis's data table to complete the line plot.

2. Use the line plot to find the median number of blocks walked to school.
