G Multiplication Facts

Emma baked a cake. This square represents her cake.

- A. Show all the ways she can cut the cake if she wants to make 24 equal pieces that have the same shape. Draw a separate cake to show each way she can cut it. Write a multiplication number sentence to describe each way.

- B. Show all the ways she can cut the cake if she wants to make 30 pieces with the same size and shape. Draw all the possible ways she can cut the cake. Write a multiplication number sentence to describe each way.
