# Labeling Fractions on Number Lines

Here is a fraction strip that is divided into five equal parts. Each part is $\frac{1}{5}$ of the whole strip.

| $\frac{1}{5}$ | $\frac{1}{5}$ | $\frac{1}{5}$ | $\frac{1}{5}$ | $\frac{1}{5}$ |

Here is the part of the number line from 0 to 1. The first mark is $\frac{1}{5}$ of the distance from 0 to 1. The second mark is $\frac{2}{5}$ of the distance from 0 to 1, and so on.
```
0                                                              1
←+———+———————+———————+———————+———————+—→
 0       1       2       3       4       5
 5       5       5       5       5       5
```

1. Here is another fraction strip and a matching number line.

```
0                                                              1
←+———————————+———————————+—→
```

A. How many parts is this fraction strip divided into? _____

B. Label each part to show what fraction of the whole strip it is.

C. Label the number line with fractions.

2. Here is another fraction strip and a matching number line.

```
0                                                              1
←+————————+————————+————————+—→
```

A. How many parts is this fraction strip divided into? _____

B. Label each part to show what fraction of the whole strip it is.

C. Label the number line with fractions.
