# Multiply on Number Lines
Maya used number lines to check if the following number sentence is true.

$$3 \times \tfrac{2}{3} = 6 \times \tfrac{1}{3}$$

Use number lines to decide if each number sentence is true. Circle the true number sentences.
**1.** $2 \times \tfrac{2}{4} = 4 \times \tfrac{1}{4}$

**2.** $4 \times \tfrac{3}{4} = 7 \times \tfrac{1}{4}$

3. $2 \times \frac{3}{8} = 6 \times \frac{1}{8}$

4. $5 \times \frac{3}{5} = 8 \times \frac{1}{5}$

5. $5 \times \frac{3}{10} = 15 \times \frac{1}{10}$

6. Look at the number sentences that are not true. Change the number sentence so it is true.
