

Name _____ Date _____

Sorting Polygons

The diagram features two rectangular boxes at the top. The left box is labeled "Box A" and has a solid black border. The right box is labeled "Box B" and has a dashed black border. Below these boxes is a large, rounded rectangular shape with a dashed black border, which is intended for sorting polygons. A horizontal dashed line connects the right side of Box A to the left side of Box B, passing through the top edge of the large dashed-line shape.

Name _____ Date _____

Sorting Polygons

The diagram features two rectangular boxes at the top. The left box is labeled "Box A" and has a solid black border. The right box is labeled "Box B" and has a dashed black border. A large, rounded rectangle with a dashed black border is positioned below these boxes, extending across most of the page width. This dashed-line shape is intended for students to draw or place polygons that they have classified.
