

U Multiplication Practice

Solve the following problems using paper and pencil or mental math. Estimate to make sure your answers are reasonable.

1. A. $48 \times 5 =$

B. $88 \times 8 =$

C. $65 \times 5 =$

D. $54 \times 4 =$

E. $27 \times 5 =$

F. $74 \times 7 =$

2. Choose a problem from Question 1. Show or tell how you can solve it using mental math.

V Crack the Code

This is an addition problem. It is solved correctly, but it is written in code. Find out what number each letter stands for. One letter is already solved for you. Here are the rules:

- Each letter stands for only one number between 0 and 9.
- Two different letters cannot stand for the same number.
- The letter N stands for the number 7.

$$\begin{array}{r} \text{ON} \\ + \text{IN} \\ \hline \text{OUT} \end{array}$$

$$\begin{array}{r} \square 7 \\ + \square 7 \\ \hline \square \square \square \end{array}$$

N = 7 O = _____ I = _____ U = _____ T = _____
