

## I Dividing It Up

$50 \div 8 = ?$  Write a story and draw a picture for  $50 \div 8$ . Include any remainder in your picture.

---

## J Which Length Is Longer?

1. Use a meterstick, bits, and skinnies to help you answer the following. Remember, one bit is one centimeter (cm) long. One skinny is 10 cm or 1 decimeter (dm) long.

Circle the measurement that is longer.

- |                   |                  |
|-------------------|------------------|
| A. 2 cm or 11 mm  | B. 32 mm or 3 cm |
| C. 5 dm or 45 cm  | D. 2 m or 180 cm |
| E. 3 dm or 300 mm | F. 87 cm or 8 dm |
2. Choose one of the questions and explain your strategy for solving it.
