

Name _____ Date _____

K Using Factors

Fill in the table. Find the largest second factor so that the product of the two numbers is close to the target number without going over the target number. Then write a number sentence to describe how you can reach the target number. The first row has been filled in for you.

Factor 1	Factor 2	Target Number	Number Sentence
5	7	38	$5 \times 7 + 3 = 38$
3		28	
2		17	
7		60	
6		43	
8		37	
4		27	
5		12	
7		33	
6		51
