J Target Practice

Play the game Operation Target. Use the digits 2, 4, 5, and 7 to make the numbers from 1 to 5. Use each digit once to make each number. Use any of the four operations: +, −, ×, and ÷. You may use the digits to form 2-digit numbers. Do not forget the order of operations, and use parentheses when needed.

K Writing Division Stories

Write a story for $256 \div 7$. Remember to talk about the remainder if there is one. Then find the answer. You may use any method you choose to solve the problem.
