

Part 3 Prizes

The children's hospital plans to spend \$100 on stuffed animals for prizes for a raffle. The tiny ones are 10¢, the medium ones cost \$2.00, and the large ones cost \$5. They will buy some of each kind. (There are many solutions to this problem. If you need more work space, use a separate sheet of paper.)

1. How many of each can they buy?

2. What strategy or strategies did you use to solve this problem?

3. How did you check your answer to see if it was correct?

4. Show another solution to this problem.
