

This graph shows the cost of a gallon of milk from 2000 to 2009 in the United States.

2. **A.** Do the points seem to form a line? If yes, use a ruler (or something straight) to draw a best-fit line.
- B.** Did the cost of a gallon of milk increase or decrease from 2000 to 2009? Explain.
- C.** If possible predict the price of a gallon of milk in 2015. Show or tell how you decided on your answer.
- D.** What is the cost of a gallon of milk at a store near you today?
