

Part 2 Telling Time

1. What time is it? _____
2. What time will it be in 3 hours? _____
3. What time was it 45 minutes ago? _____
4. What time will it be in $1\frac{1}{2}$ hours? _____
5. What time was it 90 minutes ago? _____
6. Jacob's grandmother is coming to Chicago for a visit. Her plane takes off in Florida at 11:30 A.M. It will take her about 45 minutes to get to the airport. If she wants to arrive at the airport about $1\frac{1}{2}$ hours before take-off, what time should she leave her home?
7. Irma's brother is in high school. He has four 55-minute classes before lunch. If his first class starts at 8:05 and there are 5 minutes between each class, what time is his lunch period? Show how you decided.
8. If one year is 365 days, about how many days old will you be when you are 15 years old?
