

Comparing Fraction Pieces

Use circle pieces to complete the chart. Follow the example.

	Color	How many cover the whole circle?	One piece is what fraction of the whole circle?	Which color takes MORE pieces to cover the whole circle?	Which color has SMALLER pieces?
Ex.	orange	3	$\frac{1}{3}$		
	yellow	4	$\frac{1}{4}$	×	×
1.	pink				
	orange				
2.	yellow				
	aqua				
3.	blue				
	aqua				
4.	orange				
	blue				
5.	black				
	blue				
6.	pink				
	black
