

Sharing Paper

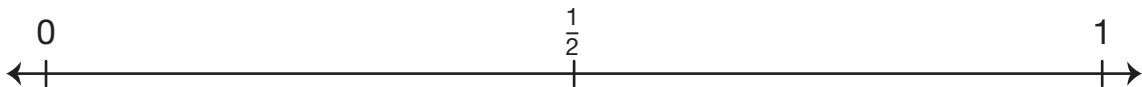

Check-In: Questions 1–3

Show or tell how you solved each problem.

Emily and Sara shared one sheet of paper. Emily used $\frac{1}{2}$ of the sheet of paper to make a birthday card. Sara used $\frac{1}{4}$ of the paper to make two gift tags and $\frac{1}{8}$ of the paper to make a bookmark.

1. How much of the sheet of paper did Emily and Sara use? Show or tell how you know and include a number sentence.

2. **A.** Place a mark on the number line to estimate how much paper is left.

- B.** Is there enough paper left for Emily to make a card like the first one she made? Explain how you know.

- C.** Exactly how much of the sheet of paper is left? Write a number sentence.

3. What can the girls make from the leftover paper?
