

MM Missing Numbers

Find the missing number in each equation.

A. $120 - \square = 10 \times 10$

B. $60 - 20 = 8 \times \square$

C. $35 + \square = 10 \times 7$

D. $10 \times \square = 60 + 30$

E. $30 + \square = 5 \times 9$

F. $5 \times 7 = (5 \times 3) + \square$

G. Show or tell how you solved Question F.

NN Making Vases

Nila is making clay vases in art class. It takes $\frac{3}{4}$ of a package of clay for each vase.

A. How many vases will Nila be able to make with 4 packages of clay?
Explain your reasoning.

B. How much clay will be left over? Show or tell how you found your answer.
