

**Z** Fence Painting

Michael's family painted the fence in front of their house. Michael painted  $\frac{1}{8}$  of the fence. His sister painted  $\frac{1}{4}$  of the fence. Dad painted  $\frac{3}{8}$  of the fence. Mom finished the project.

Write three math questions you can ask about Michael's family project. Exchange your problems with a partner or present them to the class to solve.

**AA** Multiplication and Division Sentences

Lin has 15 flowers to place in 3 vases.

- A. How many flowers go in each vase if she divides them evenly?  
Draw a picture.
- B. Write a multiplication sentence and a division sentence that describe this problem.
