

Triangle Flash Cards: 2s

- Work with a partner. Each partner cuts out the flash cards.
- Your partner chooses one card at a time and covers one corner.
- To quiz you on a multiplication fact, your partner covers the shaded number. Multiply the two uncovered numbers.
- To quiz you on a division fact, your partner covers the number in the square or the number in the circle. Solve a division fact with the two uncovered numbers.
- Divide the used cards into three piles: those you know and can answer quickly, those you can figure out, and those you need to learn.
- Practice the last two piles again. Then make a list of the facts you need to practice at home.
- Repeat the directions for your partner.
