

**AA** Fraction Action**N**

Use the fraction circle pieces or *Fractions on Number Lines Chart* to help you solve the following problems.

Write a fraction that is between:

- A. 2 and 3
- B.  $4\frac{1}{2}$  and 5
- C.  $7\frac{2}{3}$  and 8
- D. 1 and  $1\frac{1}{3}$
- E.  $3\frac{1}{2}$  and  $3\frac{3}{4}$
- F.  $5\frac{1}{2}$  and  $5\frac{7}{8}$

**BB** How Many Answers

Leaving the numbers in the order given, use operations (+, −, ×, ÷) and parentheses to get as many different answers as you can. You may use an operation more than once.

Example: 2      4      6

$$2 + 4 \times 6 = 26$$

$$(2 + 4) \times 6 = 36$$

$$(2 + 4) \div 6 = 1$$

Only whole numbers are allowed at each step. For example,  $2 \div 4 + 6$  is not allowed, since  $2 \div 4 = \frac{1}{2}$ .

- A. 25      5      10
- B. 30      6      2
