

**B** How Many Pennies

1. Predict how many pennies it will take to cover your desktop. The pennies must lie flat. Record your prediction.
  
  
  
  
  
  
  
  
  
  
2. Check your prediction. (Hint: You do not need a lot of pennies. How many do you need to run across the length of your desk? How many do you need to run across the width?)

**C** Mixed Numbers and Improper Fractions

1. Write a whole number or a mixed number for each improper fraction.  
A.  $\frac{27}{4}$                       B.  $\frac{32}{8}$                       C.  $\frac{29}{7}$
  
2. Write an improper fraction for each mixed number.  
A.  $6\frac{3}{8}$                       B.  $7\frac{5}{8}$                       C.  $8\frac{1}{6}$
