FF Plotting Shapes

1. Look at each set of coordinates. Circle the shapes that are right triangles.

Shape A: (2, 0)   (3, 3)   (0, 4)

Shape B: (−1, −1)   (−5, −1)   (−1, −4)

Shape C: (−2, 2)   (−4, 2)   (−4, 6)

2. Plot each shape to check.

3. Josh started to write the following coordinates for a rectangle. Which coordinates are missing? Plot and record the coordinates on the grid above.

(1, −2)   (5, −6)
