

**Y Medians and Means**

Students in Mr. Moreno's Language Arts class are reading a novel together. Their homework each night is to continue reading the book. Every Monday each student reports the number of pages he or she read the week before. Jackie's data is shown below.

**Number of Pages Read**

Day of the Week	Number of Pages
Monday	15
Tuesday	3
Wednesday	5
Thursday	7
Friday	20

1. What is the median number of pages Jackie read?
2. What is the mean number of pages Jackie read?
3. Which average would you use to represent the data? Why?
