### Logic at a National Park

Grace, Roberto, and Peter visited the National Park on a field trip. Each had a different favorite activity at the park (wildlife movie, fossil collection or nature display). Each liked a different location at the park (the quarry, the excavation, or the river bluff). Each bought a different lunch (chili, hamburger, or soup). Read these clues to see who liked what best.

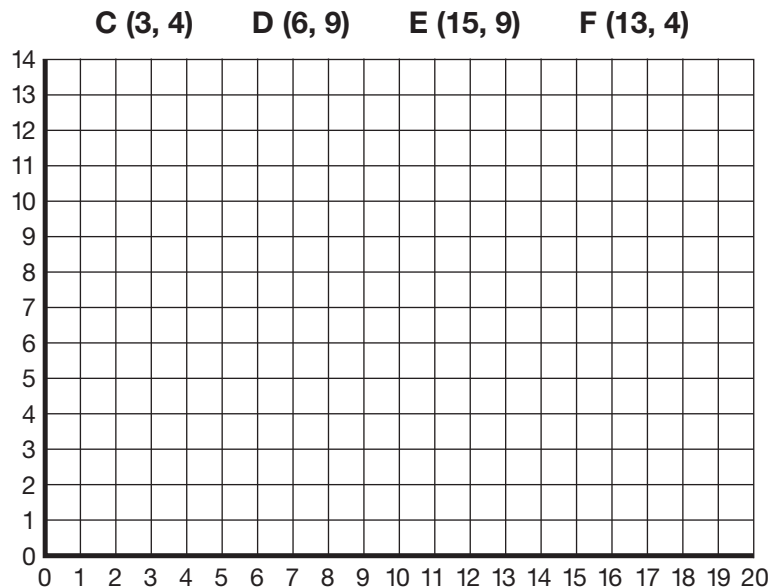

- A. Grace bought a hamburger for lunch, and Peter enjoyed the movie.
- B. The boy who loved fossils and the quarry talked to the park ranger.
- C. The boy who ate chili and likes the river bluff wrote notes in his book.

### Plot the Shape

Use the coordinates to plot the vertices of the shape.

Write the name of the shape. \_\_\_\_\_
