14765

JJ What Does It Weigh**N**   **X**

A one dollar bill weighs 1 gram. The average salary for a professional baseball player in 2013 was about 2 million dollars. Imagine if this were paid in one dollar bills. Calculate the weight of his salary in pounds. Show how you solved this problem.

Remember...
1000 g = 1 kg and
1 kg = 2.2 pounds
