

MM Plot a Parallelogram

Use the grid below to complete the problem.

Two of the vertices of a parallelogram are (5, 6) and (7, 12).

List two other sets of coordinates to make a parallelogram.

Plot the coordinates for the parallelogram.

**NN** Stacking Cups

Jacob stacked cups as shown in the sketch.

1. A. How tall is a stack of three cups?
B. Find the height of a stack of 5 cups.
C. Show or tell how to find the height of a stack of 50 cups.
