🅖 **Make it True**

⬡ **N** **𝒳**

Find the number that will make each number sentence true.

1. 247 + ☐ = 702   2. 42 × ☐ = 336

3. ☐ ÷ 8 = 31   4. 5649 − ☐ = 5385

5. Explain how you solved Question 3.

🅗 **Parent-Teacher Conferences**

🕐 ⬡

Mr. Moreno plans to meet with the parents of each of his 22 students during Parent-Teacher Conferences. The conferences are held from 4:00 to 6:00 PM and from 7:00 to 9:00 PM. (There is a one-hour dinner break for the teachers from 6:00 to 7:00.)

1. About how long can Mr. Moreno meet with the parents of each of his students if they all plan to come to the conferences?

2. Mr. Moreno finds out that 2 parents are unable to attend the conferences. Eight parents need to come between 7:00 and 9:00 because of their work schedules. The rest of the parents will come between 4 and 6 o'clock. Help Mr. Moreno schedule his conferences.
