# Family Recipe

**Homework**

Find a recipe and change the amount of each ingredient so that it serves 12 people. List each ingredient and its amount in the appropriate columns. Write a number sentence to show how you determined the new amount.

**Example:**

**Aunt Bessie's Sugar Cookies**

| Original Recipe's Ingredients<br>Serves ____4____ | Revised Recipe's Ingredients<br>Serves ____12____ |
|---|---|
| $\frac{2}{3}$ cup of sugar | $\frac{2}{3} \times 3 = \frac{6}{3}$ or 2 cups of sugar |
| $\frac{3}{4}$ cup of butter | $\frac{3}{4} \times 3 = \frac{9}{4}$ or $2\frac{1}{4}$ cups of butter |

**Name of Recipe:** _____

| Original Recipe's Ingredients<br>Serves _____ | Revised Recipe's Ingredients<br>Serves ____12____ |
|---|---|
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
